

Complimentary Workshop for Agricultural Leaders & Educators

There are many divisive issues in food production, and conversations abound on social media, classrooms, church, and at work, whether or not everyone has all of the facts. Thanks to the Kentucky Livestock Coalition, the Kentucky Soybean Board, and the Kentucky Agricultural Development Fund, TeachKyAg is providing two workshops, where we will help those in our farm community teach and discuss those tough food and farm topics with their peers, students, and world.

These workshops are free of charge and include lunch and several presentation materials to help you tell your story, but space is limited.

There are two workshops to choose from:
